Through May 2017 the TFPM has observed an overall decrease in the conflict-related displacement of 8,436 individuals (-0.12%). In addition, there has been an overall increase in the conflict-affected return population by 45,786 individuals (+4.8%). Food was reported as the top priority need among 75% of identified IDP locations and 51% of returnee locations.

### Population figures

- **2 million** IDPs
- **0.9 million** Returnees

### IDP and Returnee displacement trends

- **IDPs**: 2.76 million
- **Returnees**: 0.9 million
- **Graph showing trends from May 2015 to June 2017**

### IDP gender disaggregation (%)

- **22.7%** female IDPs
- **21.5%** female returnees
- **27.4%** male IDPs
- **28.4%** male returnees

### Needs

- **Food**: 75% IDPs, 51% Returnees
- **Financial support**: 2 IDPs, 25 Returnees
- **Access to income**: 8 IDPs, 11 Returnees
- **Shelter/Housing**: 5 IDPs, 0 Returnees
- **Drinking Water**: 3 IDPs, 3 Returnees
- **Other**: 7 IDPs, 10 Returnees

### Where have IDPs been displaced from?
