

Humanitarian Response Planning (HRP) Prioritization 2023

Prioritization Strategy

The Protection Cluster plans to reach 269,681 of targeted population in 29 conflict-affected districts across 12 regions in Somalia, who face specific protection needs and/or are at heightened protection risks, with a funding request of USD 8,304,550.

Through its 30 partners (70% national) with operational presence and response capacity, the Cluster prioritizes Protection of Civilians, People with special needs, community self-protection and feedback mechanisms.

Prioritized Protection Activities

Priority 1: Provision of protection analysis and response to ensure the protection of civilians in the ongoing conflict associated displacement and risks to civilians.

Priority 2: Identification of persons with specific needs (PSN) among displaced population, notably persons with disabilities, older people, minorities and marginalized groups at risk of exclusion.

Priority 3: Capacity strengthening of communities as first-line responders jointly with CCCM Cluster including Community self-protection, feedback mechanisms and PSEA.
